

## **April 7, 2020 Ludeman COVID-19 Status Update**

**Ludeman is currently conducting COVID-19 testing and supportive processes.**

**\* 12 residents have tested positive via the COVID-19 testing process. The individuals are in isolation.**

**\* 13 Ludeman employees who have tested positive via the COVID-19 testing process and are currently off work and coordinating their isolation and care with their medical providers.**

**\* 23 residents have recently been tested and are in isolation from others due to potential COVID-19 symptoms. That they have potential symptoms does not mean that they are COVID-19 positive. Medical personnel are continually evaluating these individuals.**

**\* 4 Ludeman homes are now in isolation due to exposure or possible exposure to COVID-19.**

**Remember Ludeman Center staff are calling families directly to inform you if your loved one is diagnosed with COVID-19 or has symptoms of COVID-19.**

**Ludeman is following the Center for Disease Control and Prevention (CDC) and Illinois Department of Public Health (IDPH) guidelines during the COVID-19 pandemic. Each center has a designated infection control employee, along with medical personnel that provide on-site support to manage COVID-19. We are consulting daily with an infection control group to review COVID-19 and to provide centers with guidance to maximize both resident and staff safety.**
